To conclude it's a very complete product that provides Vitamins, BCAAs, Glutamine and other important compounds that take our body to a higher level in body building. It will be very interesting to try Scivation Xtend, it seems to be a non regret product.

Recommended Use:

Take it as a dietary supplement. Take 1 scoop and mix in 10 ounces of cold water and consume during workout program on training days. On non training days consume it throughout the day. Keep out of reach of children.

People Who Used It Said:

"Great taste and mixability. I would love for the price to be cheaper, but a for a good tasting BCAA supplement, it's well priced"

"the mayor thing i like about this supplement is that it help me hold during insane exercise as if it was an pre-workout supplement i really keep me going."

" I've had good results with this supplement. The combination of BCAA's and glutamine is pretty good. i Recommend this product to everyone."
